

COVID-19 DELIVERY BULLETIN

May 29th, 2020

Geometrics Inc.

2190 Fortune Drive, San Jose, CA, USA

To whom it may concern,

In June Geometrics will be able to increase our production and repair capabilities. There is an order backlog we are working through. With a few exceptions, most orders will be scheduled according to this backlog.

Our priorities are to keep our employees safe by cooperating with our local authorities. The shelter-in-place mandate for Santa Clara County differs from the California state issues shelter-in-place guidelines, and also differs from various policies in place around the world. We ask for your understanding and cooperation as we support of customers and geophysical community in the safest way possible.

Normal shipments to our factory at 2190 Fortune Drive, San Jose, CA, 95131, USA are allowed. For further clarification, or for normal business inquiries, the best way to reach us is via email at sales@geometrics.com or support@geometrics.com
